

Sales Cloud Quick Start

Get your tailored Sales Cloud platform up and running quickly and at a competitive price.

Which would you prefer: a tailored sales platform, or fast implementation? The truth is, that's a false dilemma. With our Sales Cloud Quick Start service, you get the best of both: **a tailored Sales Cloud platform in just five to ten days.**

Why choose Sales Cloud Quick Start?

- a fixed-price project with a clearly defined scope and deliverables
- a fast and definite delivery date for your new platform
- high adoption rates thanks to tailored user training
- a system that's adapted to your unique business requirements

Silver Quick Start

A five-day package costing £3,750, including:

- business process workshops
- interviews with stakeholders
- requirements list and design
- Salesforce org configuration
- user training
- simple automation
- standard reports and dashboards
- system testing

Gold Quick Start

A ten-day package costing £7,500. Covers everything in the Silver package, plus:

- up to 20 new fields and record types
- custom object development
- campaign setup with HTML template
- opportunity process automation
- simple validation rules
- single source data migration (.csv)

For more advanced functionality, we will extend the Quick Start package with data migration testing and mapping, software integration, workflow and automation rules, additional reports and dashboards, custom code development, and document generation with Appitek Weaver (priced depending on requirements).
